Foil BO-PET

Wide: 1720 mm
Speed: 600 m / min.
Maschine: Rollenschneider 16

Scope of delivery:

1x **iONstream 4.0**, 6kV, 1.700mm

Application Success Stories

—bleher BEST IN FILM

With more than 40 years of market experience, Bleher Folientechnik GmbH is one of the leading processors, traders and finishers of biaxially-oriented polyester films (BO-PET).

As an industrial supplier based in Ditzingen-Heimerdingen, the company's main focus is on film processing and film finishing.

Bleher Folientechnik GmbH's customers are mainly from Central Europe, but also from other international industrial sectors such as the packaging industry, the printing industry or the automotive industry.

With about 50 employees, the company recently processed about 3,000 tonnes of film and achieved sales of about 14 million euros.

Bleher Folientechnik always offers the right solution for your application. The technologies from Bleher and Hildebrand Technology complement each other perfectly in the production process.

- **Food safe window films**
- **Sustainable films made from biodegradable PLA or cellulose di-acetate**
- **Technical film**
- **Films with high barrier properties**
- **Printable films**
- **Special films**
