

# Application Description

## Xbag - 1 (SINGLE PRE-FILTRATION SYSTEM) AND Xbag - 2 (DOUBLE PRE-FILTRATION SYSTEM) FOR BIG DUST REMOVAL

Xbag - 1 Prefilter

**Xbag Prefilter to collect bigger size particles during non-contact surface cleaning**

## Application Information DUST CONTROL

# Application Description

## Prevent absorbing Nonwovens from dust and loose fibers!

In the nonwovens converting process a lot of loose particles can be created, which have to be removed and collected. With Xbag, the coarse particles enter with the airstream at the top and then pass through 1 or 2 nylon net bag(s).

### Key Features:

- Quick bag change
- Bag, mesh size 0.25mm or 1.00mm
- Front door with window and 2 twist-lock door opener
- Up to 2.500m/min web speed

### Our product is ideal for many processes:

- Unwinding/Rewinding
- Converting
- Printing
- Slitting
